Since we know we will have at least a few documents, WWB can take the lead. People can send any other materials to me.

One question for STPB: They request information related to TAS. Should we contact the requestor to determine if they want information regarding ongoing implementation under an old TAS (CWA 106), vs only related to any new TAS discussions?

The above FOIA is assigned to WQ, S&T, NPDES and Wetland; Tim and Tinka may also have electronic records also. Requester is asking for copies of electronic and paper copies of records January 1, 2013 through the present, regarding the development of any phosphorus TMDL, etc. Please let me know what branch should be the lead on this FOIA; if we need to set up a collection database and attorney assignment. The due date on this FOIA is September 3rd. There is a \$500.00 fee commitment.

Because there is a problem with searching for documents in outlook, an outlook search for records request will need to be submitted to David Hoff in the FOIA office who will send this info to Washington to do a search for records on everyone assigned. He will need the following:

Title of search
Type of search
Search keywords
Applicable date range of search
Name and email addresses of custodians
Estimated number of documents

FOIA Response date

Thanks, mj

Regarding the STPB part.....

David Horak provided this information to Barbara Wester and they can address the TAS part – last 2 bullets. We did receive the tribes TAS 303/401 application yesterday. David Horak would be able to address any needs from STPB.
